ABHINAV SHUKLA

Software Test Engineer

📞 7507930971 @ abhinavshukla846@gmail.com 📍 Gurugram, Haryana

SUMMARY

Experienced Quality Assurance Engineer with over 4+ years of experience in performing Functionality Testing, Automation Testing and Regression Testing. QA Testing Process. Experienced in testing Client/Server Web-based application., including software test case development and execution, implementation of test plans, and bug tracking. An experienced Professional in Manual Testing, Functional Testing, Non-Functional Testing, UI Testing, Automation Testing in Selenium WebDriver. Agile Methodologies, Core JAVA, OOPS Concept, Sanity Testing, Ad hoc Testing, API testing using POSTMAN, Knowledge of SDLC & STLC,CI/CD pipeline, Azure

EXPERIENCE

Quality Assurance Engineer

Eptura 📅 01/2022 - Present 📍 Gurugram, Haryana

Project:- Calendar Integration Service

- Design Test case by understanding the client requirement clearly ,Execute test case to validate functionality. Involved in bug analysis, and perform regression testing , Involved in client Interaction.
- Created CI/CD pipeline and End to End environment setup.
- Created Exchange Tenant, AD app, Virtual Machine, pipeline deployment for Environment setup
- Used Graph API for data verification
- Log verification on Azure portal for data matrix.
- Created Confluence documents for understanding of project.
- Ensured the implementation and Quality process at each step of the project
- Involved in requirements analysis, identifying the testing scope and providing estimates.
- Involved in calls with onshore team and QA managers in refinement process.
- Tool Used- Microsoft Azure Data Explorer , SQL Server Management Studio , Bitbucket,Postman,TestRail

Quality Assurance Engineer

Eptura 📅 01/2022 - Present 📍 Gurugram, Haryana

Project:- Enterprise Web management Portal:-
Understanding the client requirements clearly and Design the test case Execute test case to validate functionality , Bug analysis, and perform regression testing .Involved in client Interaction , Find out the bug and log that bug in Jira . Doing Bug verification and according to the testing update the comment in jira . Doing Feature testing, Regression testing, Sanity testing , Smoke testing,Triaging activities.

- Identifying E2E scenarios, writing Test scripts for different Methodologies
- Knowledge of web-driver, web element, xpath, handling dropdown, wait statement, handling mouse operation, Window handling and POM
- Automated manual test-cases to reduced manual effort ,Web based application Testing Involved in Functional testing.
- Knowledge of API Testing (Tools used are Postman)
- Doing Feature testing, Regression testing, Sanity testing for both iOS and Android mobile .

STRENGTHS

🚩 **Team Collaboration**
Coordinated with cross-functional teams to ensure quality standards were met and maintained

🧠 **Problem Solving**
Developed and executed solutions for complex quality issues, resulting in increase in customer satisfaction

💎 **Client Interaction**
Experienced in client interaction and understanding client requirements for test case development.

💎 **Agile Methodologies**
Proficient in Agile methodologies, including implementation of test plans and bug tracking.

💎 **Test Automation**
Skilled in Automation Testing using Selenium WebDriver and POSTMAN for web service testing.

SKILLS

| Manual testing | Agile | API Testing |

| Postman | Jira | Test Rail | SQL |

| Load test | Selenium | Azure |

| Azure Storage |

| Bitbucket | Core Java | STLC |

| SDLC | UAT | Test Design |

| Quality Assurance |

EXPERIENCE

Software Engineer

Tech Mahindra   📅 08/2019 - 01/2022   📍 Noida,UP

Project:- Capacity Planning

- Wrote and optimized test cases to maximize success of manual software testing with consistent, thorough approaches.
- Performed Root-cause analysis of the failed test cases in test execution reports and Reporting/ tracking of bugs in defect tracking tool (JIRA).
- Responsible for monitoring automated test executions, including maintenance, and reporting to the senior management.
- Created customized XPATH and CSS for identifying dynamic elements.
- Performed automated test runs for Regression testing, Negative testing & bug retests for all the release builds Implemented all the functionality as per the requirement.
- Authored and maintained well-organized, efficient and successful manual test cases for entire team.
- Designed testing scenarios for usability testing.
- Doing Feature testing, Regression testing, Sanity testing for both iOS and Android mobile .

EDUCATION

Bachelor of Technology

Bharati Vidhyapeeth Deemed University College of Engineering

📅 2014 - 2018   📍 PUNE, MAHARASHTRA
